---

Web Developer with 2+ years of experience building responsive and scalable applications using Angular, TypeScript, and Node.js. Skilled in creating reusable components, integrating RESTful APIs, and optimizing UI/UX for performance and accessibility. Passionate about writing clean, maintainable code and collaborating in Agile environments to deliver high-quality web solutions.

## TECHNICAL SKILLS:

- **Frontend:** Angular (v14+), TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, RxJS, Angular Material
- **Backend:** knowledge on Node.js, Express.js, Java
- **Database:** Mongodb
- **Tools:** VS Code, git, postman
- **Testing:** Manual testing (Test Case Design, Execution, Bug Reporting, UI/UX Testing)

## EXPERIENCE:

**Smartify Software Solutions** – Hyderabad

**Web Developer | OCT 2023 – Present**

- Developed dynamic, reusable UI components using Angular Material and Bootstrap for responsive, scalable front-end architecture.
- Integrated RESTful APIs to enable real-time data synchronization and improve workflow efficiency.
- Ensured cross-browser compatibility and optimized UI for high performance.
- Collaborated with team members in Agile sprints to deliver modules on schedule.
- Assisted in implementing application performance monitoring and debugging to ensure smooth functionality.
- Contributed to improving documentation for front-end components and workflows for team reference.

## PROJECTS:

### ◆ Smato Apps

An enterprise application designed to integrate various departments, ensuring data consistency and improving collaboration and workflow efficiency.

**Tech Stack:** Angular 16, Angular Material, RxJs, HTML5, CSS3, Bootstrap

#### Key Responsibilities:

- Developed dynamic and reusable UI components using Angular Material and Bootstrap for a responsive and scalable frontend.
- Integrated RESTful APIs to enable real-time data updates across departments.
- Implemented responsive design for cross-device compatibility
- Ensured high-performance UI/UX, and enhanced user interaction.

### ◆ IETM Application

Interactive Electronic Technical Manual System A digital platform for accessing, managing, and updating technical manuals with improved user experience.

**Tech Stack:** Angular 16, Angular Material, RxJs, HTML5, CSS3, Bootstrap, MySQL, node.js

#### Key responsibilities:

- Developed reusable Angular components for document viewing and updates.
- Implemented efficient routing and modular structures for better scalability.
- Reduced page load time by 25% through optimized API handling and lazy loading.
- Wrote a Common Service for API handling and data operations.
- Worked on writing RESTful APIs and backend models for a few modules using Node.js and MySQL.

## EDUCATION:

Bachelors of Technology (B.Tech)

Kakinada Institute of Technological Sciences, Kakinada.

JUNE 2019 - JUNE 2022

## INTERESTS:

- Exploring new technologies
- Playing Cricket
